Catalogue: **School and Community Furniture**

Category: **Bar counter**

Code: **MAREA**

Description:

The Marea design is visibly inspired by the waves of the sea. The sinuous band wraps the front, which can be made with a coral, cherry, acid green or silver metallic paneling depending on the effect you want to give to the furniture.

The different front finish means that the Marea design can be lively, fresh and youthful with coral or colored panels; of classic and refined taste with cherry paneling.
