

Catalogue: **Furniture for Nursery and
Preschool**

Category: **bathroom box**

Code: **SP35001**

Description:

Prefabricated modular walls in 10 or 14 mm thick HPL laminate, self-extinguishing in fire resistance cl1. Their non-porous surface and the accurate working phases to which they are subjected make them a product that is perfectly in line with current regulations on hygiene and safety. The quality of the thick HPL laminate and the concept of this playpen effectively meet the needs of nurseries and kindergartens. Rounded corners and an anti-finger pinch system are the highlights of this playpen for children. Specifically designed for communities, public spaces, school spaces. The width and depth are variable and adaptable to individual needs. Lock with magnet knob. Available in various colors.

Notes:

The solution with round doors is also available on request.
