Description:

Modular system of seating on beam.

3-seater version.

The monocoque seat made of a single sheet of steel painted with epoxy powders, has a light and extremely robust shape at the same time. The microholes that are present on the entire seat allow the circulation of air avoiding injuries to people or damage to objects.

The bodies can be equipped with armrests (quote on request) or be replaced by tables.

The cushions can be colored: black, red, blue and leather.
