

Catalogue: **Park & Playground Equipments**

Category:

Code: **PE02129**

Description:

Teleferica natura, composed of 14 cm diameter pylons, fixed to the ground.

The structure is in solid wood treated with antiparasitic water-based paint.

We therefore recommend a security area that covers the entire length of the game.

The steel rope is high-strength with adjustable stroke limit system.

For a correct maintenance of the article, an annual maintenance is recommended.

Overall area (total length): from 10 to 20 meters
