Description:

The Giraffe is part of the Organiq collection, inspired by nature, in which each structure is designed to resemble an animal.

It consists of nets and climbing ropes, with modules made from rotation-moulded polyethylene.

The steel structure features Ø133 tubes, characterised by varying radii of curvature and assembled using injection moulding. The numerous nets are made from multi-layered polypropylene ropes with a steel core, 16 mm in diameter.

The play structure is designed for children aged 3 to 12 and can accommodate up to 9 users at the same time.

The product complies with standard EN 1176-1.
