Description:

The pirate vessel is our latest innovation in the recovery of interior spaces.

From an internal staircase of waiting parents, we have recreated this game scenario depicting the theme "pirates".

This new type of game allows you to take advantage of unused corners, making them multifunctional.

The vessel is made of bilaminated trampling floors, laser-cut Hpl scenario panels depicting the sailing and sea shapes, slide, rudder, polypropylene periscope and soft pool.

There are infinite themes that can be realized by project.
