

Catalogue: **Park & Playground Equipments**

Category:

Code: **PE02321**

Description:

Structure composed by 3 panels for the game and for the logical learning ideal for the kindergartens but also for equipped playgrounds. Structure made of autoclave-impregnated Nordic pine solid wood, natural color, HPL panel.

Activity: a panel showing three engraved paths, to be followed with a "floret" indicator; cylinder system, where each yellow cylinder shows an X and an O printed, thus allowing to play the classic "Tris"; game memory, where each "card" reports an animal printed on one side and one color on the other.

On request it is possible to combine with other activity panels.

Dimensions: L 170 x P 160 x H 90 cm

Overall dimensions: diameter 200 cm
