

Catalogue: **Park & Playground Equipments**

Category: **Safety Surfacing**

Code: **PE33016**

Description:

Flooring for sports use, transit areas, parking lots and parking areas.

The application of the floors significantly increases the pedestrian comfort ensuring the anti-slip effect and effective protection of the ground under the passage of light vehicles.

This flooring is 100% produced with recycled SBR rubber granules and is agglomerated with polyurethane resins.

This product is available in 2 variants:

- In 50x50 cm side plates, special holes are provided for joining the plates through plastic plugs, which also allow for staggered installation.
- 43 mm thick block, which allows to cover areas and corridors of even complex shapes and surfaces with high wear.

Available colors: green, red, gray

Dimensions:

- 50x50x4 cm: € 46.00
- 50x50x5 cm: € 60.00
- 20x16,5x4,3 cm block
