

Catalogue: **Park & Playground Equipments**

Category: **Safety Surfacing**

Code: **PE33030**

Description:

Anti-trauma puzzle flooring, made by hot molding recycled rubber granules, mono-component polyurethane binder, additives and dyes.

The recycled rubber granules have a constant grain size between 1 and 4 mm in diameter and make the paving slab draining.

The slab is provided with 5 x 5mm sloping bevels along the entire perimeter that recreate the tile effect.

Weather resistant product. It can be used to pave squares, courtyards, walkways, play areas, outdoor environments, relaxation areas, pool areas / whirlpool, piers.

Dimensions and weights: Format 105 x 105 cm
(material tolerances 1%)

Puzzle interaxis dimensions 100x100 cm
(material tolerances 5%)

Available in different thicknesses:

Thickness 2 cm

Thickness 3 cm - HIC 123 cm

Thickness 4.5 cm - HIC 150 cm
