

Catalogue: **Park & Playground Equipments**

Category: **Swing Seats**

Code: **PE30015**

Description:

Arc security backrest for swings. Can be used as well as an ergonomic backrest in addition to the pre-existing seat, also as an element to direct the exit of children from the swing, thus avoiding any clashes. Composed of a stainless steel tube covered in black polyurethane. Easily positioned in the two different directions by sliding the chain in the special seat at the ends of the tube (suitable for 6 mm thick chains). Obligation to use according to EN 1176 for hexagonal swings.
