### Description:

Bins made of 10/10 thick galvanized steel sheet, measuring 28 x 44 cm, with a perforated bottom for rainwater drainage. The presence of three bins fixed to a supporting pole allows for easy waste separation in your parks. All galvanized steel parts are painted with non-toxic powders in accordance with current regulations. RAL colors are available at the customer's discretion. Central support made of 76 mm diameter galvanized steel round tube. Anchoring: Pole to be buried. Concrete plate to be bolted, if required, is available at an additional cost. Dimensions: 64 x 64 x 120 cm – Usable height 100 cm. Basket capacity: approx. 27 liters each.
