

Catalogue: **School and Community Furniture**

Category: **Wall soundproofing panels**

Code: **20534013**

Description:

High-performance sound-absorbing acoustic panel covered in fireproof fabric and made with M1 certified non-toxic and environmentally friendly sound-absorbing material. Technical characteristics: 5 cm of non-toxic, non-combustible and environmentally friendly high efficiency mineral wool which ensures high absorption even on medium-low frequencies up to 60% higher (@500Hz) than polyester fiber or polyurethane sponge.

Solid internal structure in anti-deformation poplar plywood and covering in elegant Oeko-Tex fabric, available in different colors, for a contemporary and modern finish. Square-type wall fixing system or attachable to the ceiling.

Dimensions: 150 x 45cm (5cm thick)
