

Catalogue: **Park & Playground Equipments**

Category: **Wooden Play structures**

Code: **PE02143**

Description:

Fantasy Castel is an innovative project, inspired by the latest trends in Nordic design, where attention to materials has allowed us to achieve very interesting results. We started by reusing pieces of our production, combining them in an organic way, giving life to a collage of colored elements of many different shapes; the child will therefore find a game of different shapes, colors and heights: a truly fantastic world. The game is composed of a central part with a structure in Nordic pine treated in an autoclave and ecological impregnation, covered with polyethylene panels (wooden platform section 3,5 x 12 cm, structure uprights 9 x 9 cm). The access staircase is camouflaged inside the tower, and allows access to 2 colored slides. All fixing screws are protected by flower-shaped polypropylene caps.

Tower size: 210 x 215 cm

Overall area: 760x220 cm

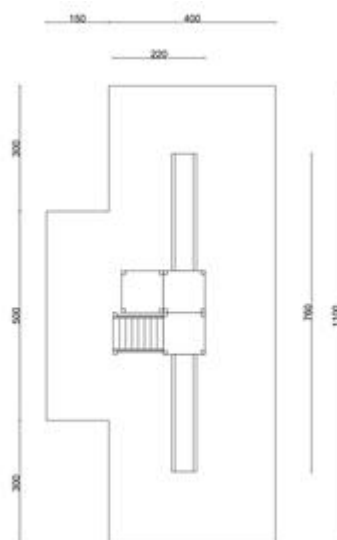

Recommended safety area: 51.5 mq

Slide platform height: 130 cm

Notes:

The colors of the equipment represented in the images are purely indicative.

Allegati:

- protegge da insetti e funghi
- rispetta le normative proteggendo l'ambiente e i consumatori
- esente da acido borico
- testato da oltre 15 anni

I NOSTRI LEGNI

I nostri impregnanti penetrano in profondità in modo uniforme, assicurando una protezione permanente ed efficace contro funghi e insetti che distruggono il legno.

PROTEZIONE ECOSOSTENIBILE DEL LEGNO PER ESTERNI
