

Catalogue: **Park & Playground Equipments**

Category: **Wooden Play structures**

Code: **PE02297**

Description:

Combined castle, made up of three turrets, placed at different heights or on the same height, on which colored polypropylene slides are placed. As a connection to the two turrets, there is an inclined bridge or a flat bridge with a polyethylene parapet, while at the ends of the structure, a wooden ladder, a climbing wall and a vertical polyethylene climbing wall are placed.

The structure of the game is entirely made of Nordic pine impregnated in an autoclave to resist atmospheric agents, with colored polyethylene panels (perfect high-density material for outdoor use), post caps in colored plastic, and daisy-shaped screw-cover elements.

There are 3 versions:

- Stair platform height and slide platforms: 95cm
- Stair platform height and slide platforms: 130cm
- Stair platform height: 95cm. Slide platform height: 130cm

Dimensions: 700 x 420cm

Slide platform height: 95/130 cm
