

Catalogue: **Park & Playground Equipments**

Category: **Wooden Play structures**

Code: **PE0208X**

Types of school: **materna**

Description:

The Fiorellino Castle, suitable for children aged 3-12 years, is composed of a structure made of solid Nordic pine wood impregnated in an autoclave, with natural color and multi-coloured polyethylene coverings (thickness 10 mm) which are indestructible and with colors resistant to UV. The castle is composed of a tower with ladder, a rotational polyethylene slide and in the lower part polyethylene panels (or wooden panels equal to the structure). The game is completely finished with screws equipped with closing caps.

Available in two versions:

- Version 1

Overall area: 220 x 380 cm

Security area: 34 mq

Slide platform height: 130 cm

- Version 2

Overall area: 100 x 500 cm

Security area: 32 mq

Slide platform height: 130 cm

Notes:

The colors of the equipment shown in the images are to be considered purely indicative. All equipment requires continuous and constant maintenance. Available on request with slide h 95. The version with slide h 95 cm does not require anti-shock flooring if installed on grass.
