Description:

Equipped wardrobe, entirely made of multilayer plated with laminate, composed of elements connected by steel hinges, which allow this structure to open, close and move according to needs. The interior is designed in 2 versions, (cabinet painting and cabinet racking) and can easily adapt to any space, with its infinite containers, shelves and elements of interaction for the little ones. Ideal for deriving symbolic and mobile laboratory corners, which come into operation only when necessary, and can be moved in case they are no longer needed.
